📍 Remote / Worldwide

SUMMARY

Self-taught developer transitioning from financial automation to full-stack engineering. Experienced in building complex digital ecosystems, managing large-scale repositories, and designing scalable infrastructure. Passionate about developer experience, performance, and creating unconventional digital experiences.

EXPERIENCE

Senior Full Stack Developer

2023 - Present

Biso Ecosystem

- Managing 70+ GitHub repositories and overseeing the entire digital infrastructure.
- Architecting microservices using Node.js, Rust, and Kubernetes.
- Implemented CI/CD pipelines reducing deployment time by 60%.

Freelance Web Developer

2021 - 2023

Self-Employed

- Built custom web solutions for diverse clients using React and Next.js.
- Optimized legacy codebases for performance and SEO.

Automation Specialist

2019 - 2021

Finance Sector

- Automated complex financial reporting using VBA and Python.
- Saved 20+ hours per week of manual data entry through script automation.

TECHNICAL SKILLS

JavaScript/TypeScript	React	Next.js	Node.js	Rust	Python	SQL	Docker
Kubernetes	AWS	Tailwind CSS	Three.js				

PROJECTS

- **Portfolio OS**

Interactive 3D operating system experience built with React Three Fiber and Zustand.

- **Biso Infrastructure**

Multi-service architecture handling thousands of daily requests.
